### General Tours

EGTI provides general tours to prospective students, families, guardians, educators, counselors, case managers and other service providers. The visit takes approximately two hours and includes a walking tour of the hotel, restaurant, and EGTI as well as a presentation about the overall training program. View dates on the website calendar.

### Career Sampling Sessions

Throughout the year, prospective students have several opportunities to spend time observing the various jobs for which EGTI provides training. During a two-day Career Sampling Session, interested participants will have opportunities to shadow an employee on each job and perform portions of the job. This will assist both EGTI staff and the participants as they determine which training program is right for them.

### Training Programs

EGTI currently provides nine training program tracks within food service, hospitality, and healthcare support. Specific job responsibilities and video vignettes can be viewed on the EGTI website to better understand the focus of each training program.

### Applying

To ensure that EGTI is the right fit, we require a completed application packet. Once the application packet has been submitted, an in-person interview and assessment will be scheduled.
